城市日誌 Urban Journal

王俊琪 Chun-Chi Wang

一個都市裡的居民，把他們視為一個共同體，一起幫這個城市寫日誌。

城市日誌這項互動裝置是建構在行動簡訊廣播系統上(Data Broadcasting Service System) 的作品，在城市裡的居民可以透過由行動簡訊(Short Message Service) 把寫好的日誌經傳送出去，當新的日誌不斷的送入，同時會替換掉舊的日誌。這項裝置創造了分享與交流的對話平台，以媒體傳播的方式，帶領大家進入一個全球城市的對話網絡裡。

「城市日誌」整個計畫將會公開實踐，所有日誌的內容將會以公開的儀式公佈在展覽場上。在計畫執行中，動員民眾介入、參與、互動，來運用行動簡訊的交換來傳遞訊息，匯集民眾寫下對在這個熟悉的生活環境的梦想、記憶、想法與意見。

In this work, a city's inhabitants are viewed as a community that can work together to keep a "journal" for the city.

*Urban Journal* is an interactive installation built around a data broadcasting service system. The city's inhabitants send in the journals entries that they have written using mobile phone SMS (Short Message Service) text messages. As the new entries come in, older entries are eliminated. This installation creates a "dialogue platform" for sharing and exchange, using the techniques of broadcasting to bring the participants into a network of dialog based on the concept of the global city.

The entire *Urban Journal* project will be implemented in public, with all journal entry content being displayed in public in the exhibition venue. Members of the public will be able to participate in and interact with the installation; the exchange of text messages will be used to bring together people's dreams, memories, thoughts and opinions with respect to the environment in which they live and which is so familiar to them.
