

[記憶中] Net Recall

莊杰霖 Jie-Lin Chuang

作品[記憶中]透過網路相簿的擷取，再現了一種對回憶的感受。因為數位相機的普及，人們開始大量拍照，並且透過網路來分享它們，因此網路相簿中聚集了來自世界各地的回憶，每分每秒不斷地增加、擴大，就像從宇宙的奇點不斷以光速向外飛離。

In the work *Net Recall*, the creator re-creates a feeling of memory by retrieving the photo albums on the internet. Because of the diffusion of using digital camera, people start to take photos more and share them through the internet. Therefore, the internet photo albums gather the memories from all over the world and they are also increasing and enlarging every single second. It's just like that the photos are keeping flying out with the velocity.
